Professional Summary

Motivated B.Tech student with strong foundations in software development and problem-solving. Skilled in building practical projects and applying concepts in real-world scenarios. Seeking opportunities to leverage technical skills in [**target role: e.g., Software Engineering / ML**] and contribute to impactful solutions.

Education

Shri Shankaracharya Technical Campus, Bhilai Expected 2028
B.Tech in **C**omputer Science and Engineering(2024-2028)
Current SPI: **8**

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Machine Learning.

Projects

Smart Student Monitoring System GitHub

- Developed an AI-based student monitoring system using **Python, OpenCV, and Web Technologies** to track attention and detect suspicious behavior in real-time.
- Implemented **computer vision techniques** for face detection and activity monitoring, improving classroom supervision efficiency.

Movie Recommendation System GitHub

- Built a personalized recommendation engine using **Python and machine learning algorithms** to suggest movies based on user preferences.
- Applied **content-based filtering and similarity metrics** to improve recommendation accuracy.

FloodVision GitHub

- Developed backend infrastructure for an **AI-powered urban flood prediction system** to assist municipal-level decision, making ward-level flood risk analysis and prediction
- Designed APIs and data pipelines to process **real-time environmental and drainage data**.

Experience / Leadership

HackBIOS Hackathon Volunteer [2025]

- Coordinated logistics and participant support for a college-level hackathon involving multiple teams.
- Assisted in managing event operations and ensured smooth execution of technical sessions.
- Facilitated communication between organizers and participants to enhance overall event efficiency.

Skills

Technical Skills:
Languages: C++, Python, MySql
Technologies: HTML, CSS, JavaScript, Git, SQL , OpenCV

Soft Skills:
Problem-Solving, Communication, Teamwork, Time Management

Achievements

- Secured **1st Runner-Up** in **TechSprint Hackathon** (Google Developer Group, college-level) among multiple competing teams.
- Cleared the **first round of India Innovates 2026**, a national-level hackathon at **Bharat Mandapam, New Delhi**, collaborating in a competitive problem-solving environment.
